5.0 Duties and Responsibilities

TADQEEQ fulfills the requirements of ISO/IEC 17065 and will ensure that the Certification Scheme(s) for Product Certification, are controlled and operated so as to ensure, amongst other things, that they are impartial, and that decisions taken and implemented at all levels, including Management and Committees, are free from commercial or other pressures that may prevent the objective provision of Certification Services. The Certification Scheme is designed based on ISO/IEC 17067.

Ensure that information obtained during the Certification Process, from sources other than the Client, is not disclosed to anyone without the written consent of the individual concerned, except where the law of land requires such information to be disclosed.

6.0 Objectives of Product Certification

The fundamental Objectives of Product Certification are: -

- to address the needs of Consumers, Users and, more generally, all Interested Parties by giving confidence regarding fulfillment of specified requirements.
- to demonstrate to the market that their Product has been attested to fulfill specified requirements by an impartial third-party body.

Product Certification provides the following:

- Confidence for those with an interest in fulfilment of requirements, and
- Sufficient value so that suppliers can effectively market Products.

8.2.5 Attestation

Following the decision to grant Certification, **TADQEEQ** issues a statement of Conformity.

Under this Scheme, the statement of Conformity is in the form of a Certificate and a subsequent listing of the Certificate on **TADQEEQ** Website.

In addition, the Certified Client may place the Scheme's Certification Mark on the Product subject to a Licensing Agreement being entered into with **TADQEEQ**.

8.3 Licensing Use of Certificates and Marks of Conformity

8.3.1 General

The use of the Certificate and Mark of Conformity is controlled through conformity of certificate issued by **TADQEEQ** to each Organization which uses them on, or in conjunction with, Certified Products.

The Organization holding the conformity of certificate (referred to in this clause as the Licensee) may be different from the Client to which the Certificate was issued. Circumstances under which a different Organization might be involved include the following:

- (a) the Client sub-contracts the manufacture of the Product, including the placing of the mark on the Product, to another Organization (the Manufacturer would need to be a Licensee)
- (b) a Customer of the Client applies its own label, including the mark, to the Product under an agreement with the Client (the customer would need to be a Licensee)
- (c) other cases.

In all cases, the Client ensures that **TADQEEQ** has access to the Licensee's premises for the purposes of Evaluation as agreed.

8.3.2 Mark of Conformity

Not currently applicable for DGSM.

8.4 Suspending or withdrawing a conformity of certificate

8.4.1 Suspension

The applicability of the conformity of certificate to a specific Product may be suspended for a limited period, for example in the following cases:

- (a) if it shows that the Corrective Action taken on the Non-Conformity issued is not effective or satisfactorily discharged,
- (b) if a case of improper use of the Certificate or the Mark (e.g. misleading publications or advertisement) is not solved by suitable retractions and appropriate Corrective Actions by the Licensee
- (c) if there has been any other contravention of the Product Certification Scheme or the Procedures of the Scheme

8.4.2 Withdrawal

Apart from the Suspension of the conformity of certificate is withdrawn in the following cases:

- (a) if the Licensee fails to comply with the due settlement of Financial Obligations
- (b) if there is any other contravention of the Licensing Agreement
- (c) if inadequate measures are taken by the Licensee in the case of Suspension.

In the above cases, **TADQEEQ** has the right to withdraw the conformity of certificate by informing the Licensee in writing concerning the specification of a time limit.

Furthermore, the conformity **of certificate** may be withdrawn in the following cases:

- if the conformity of certificate does not wish to maintain the conformity of certificates.
if the Standard or Rules are changed and the Licensee either will not or cannot ensure Conformity with the New Requirements;
- if the Product is no longer made or the conformity of certificate goes out of business;
- on the grounds of other provisions specified in the certification Agreement.

9.0 Publicity by Client

The Client has the right to publish the fact that:

- (a) an identified Product has been Certified
- (b) the Client has been authorized to use a valid Certificate of Conformity,

In every case, the Client takes sufficient care of its publications and advertising so that no confusion arises between Certified and Non-Certified Products.

The Client does not specify any function or make any claim or the like in user information that could lead purchasers to believe that performance of the Product or its use is covered by the Certification when in fact it is not.

In this example the Scheme requires **TADQEEQ** to approve instruction books, manuals and other user information accompanying the Product.

10.0 Changes affecting the Certification

10.1 Changes to Product Requirements

When a standard or another Normative Document that is part of the Certification Requirements is changed, there are a number of factors that have to be considered when fixing up the date on which the New Product Requirements of the changed document will come into force (effective date reflecting the transition period).

The effective date of obsolescence of a Standard or other Normative Document is communicated by **TADQEEQ** to all applicable Clients to allow them adequate time to take appropriate action.

In those cases when the Standard development Organization responsible for the Standard or other Normative Document defines the transition period until which the superseded document is valid, this date defines the obsolescence of the superseded document unless otherwise stated by law or by the Scheme.

Further factors that are considered when choosing the effective date include, but are not necessarily restricted to, the following:

- (a) Compliance with Regulations or Contractual Obligations;
- (b) the urgency of complying with revised Health, Safety, or Environmental Requirements;
- (c) the length of time and financial costs for retooling and manufacturing a Product complying with the revised requirements;
- (d) the extent of stock on hand and whether it can be reworked to meet the revised requirements;
- (e) avoidance of unintentional commercial advantage given to a particular manufacture or design;

(f) Operational constraints of TADQEEQ.

10.2 Changes to Scheme Requirements

The changes in the Scheme requirements, such as: -

- (a) test and examination Procedures where these are not contained in the standards or other Normative Documents that specify the Product Requirements
- (b) conditions for Licensing of the Certification mark
- (c) Qualification criteria and Procedures for Conformity Assessment bodies participating in the Scheme.

10.3 Changes by Client

The Client informs TADQEEQ about any intended modification to the Product, which may affect the Conformity of the Product. TADQEEQ determines whether the announced changes require another Initial Testing and Assessment or other further investigations. In such cases, the Client is not permitted to release Products under the Certificate resulting from such changes until TADQEEQ has notified the Client accordingly.

If the Client wishes to apply the Certification to additional types of Products, but to different specified requirements, or if the Client wishes to apply for an extension of the Certification to cover an additional facility that is not covered by the earlier License, it will be necessary to perform only those parts of the Original Application Procedure which do not cover the new circumstances.

11.0 Confidentiality

TADQEEQ is responsible for ensuring that Confidentiality of Information is maintained by its Employees and those of its Sub-Contractors concerning all information obtained as a result of their contacts with the Client; this applies also to information obtained at the application stage.

12.0 Impartiality

TADQEEQ is responsible for ensuring that impartiality as per TADQEEQ Impartiality policy

13.0 Product Liability

In this Scheme, all questions related to Product Liability are dealt with on the basis of the relevant Legal System(s).

11.0 Complaints and Appeals

The Client has a right to complain to TADQEEQ about aspects of the service provided. The Client may also appeal to TADQEEQ against its decisions on issuing, maintaining, extending, suspending and withdrawing Certification. All the Complaints and Appeal will be entertained as per the defined Procedure.

3.3 شهادة التصريح التي تحصل عليها من بوابة استثمار بسهولة للمنتجات المذكورة في الفاتورة التجارية.

في حالة عدم وجود أحد المستندات المطلوبة عند وصول الشحنة للمنافذ الحدودية :

- 1- يقدم المستورد خطاباً مرفقاً بصورة من الفاتورة التجارية بالإفراج المؤقت عن الشحنة متضمناً رقم الفاتورة إلى دائرة المطابقة بالمديرية العامة للمواصفات والمقاييس ، ويدفع الرسوم (50 ريال عماني) و إرفاقه في نظام بيان الحساب بعد مراجعة الدائرة له.
- 2- على المستورد تقديم الوثائق الغير المقدمة (يتحمل المستورد كامل المسؤولية في حال التصرف في الشحنة أو جزء منها قبل الحصول على موافقة المديرية)
- 3- الموافقة على الإفراج النهائي عن الشحنة على ضوء الوثائق المقدمة بالقبول أو بالرفض (في حالة الرفض يتم إعادة تصدير الشحنة مباشرة إلى مصدرها أو إتلافها بالتنسيق مع الجهات المعنية مع تحمل المستورد التكاليف)
- 4- دفع الرسوم المقررة لفك التحريز عن الشحنة برسوم قدرها (50 ريال عماني).
